Your horse will look right and sound right. Your horse will look right and sound right. The clear and detailed graphics are the attraction of racing simulator games from the beginning in the 1990s. Download Horse Racing Games for PC, Windows 7/8/8.1/10, Mac & Linux Realistic horse racing game where you train and race horses against others online. Game includes breeding, auctions, claiming races, bloodlines, and much more! Horses, stables, and jockeys are the core of the horse racing simulator games. The steaming deserts of Egypt, the dramatic scenery of the Rocky Mountains, or the emerald green fairways of an exclusive private golf course. Are you already ready for a new great game? Horse racing simulator games with excitement, are racing simulators where you are the driver of a car or a bicycle. We want to go racing! The main focus of horse racing simulator games is to get behind the steering wheel and drive your vehicle. At any time you can decide where you want to drive your virtual vehicle. Often we are racing in combination with other drivers. And since that is not enough, you can also compete as an independent driver, for instance with fellow real racing drivers. The entire driving is based on your cars driving behavior. Every aspect of your car and you as a driver is simulated in horse racing simulator games. Whether it is gas, acceleration or braking, your input is simulated. If you want to pursue as a driver, racing simulators with great artificial intelligence. With the given data such as surface, altitude and condition of the course, the horse racing simulator is able to estimate your current driving behavior. From there on you can control your vehicle in virtually any manner. From left to right or right to left, the steering wheel is locked and you can follow the course exactly. Tilt the steering wheel according to the racing line and adjust your left or right by use of the left or right buttons. Drive the car into the area from where you are fired. This could be a pitlane, a sharp corner, or a straight. This is where the track is visible in the world of horse racing simulator games. The task of the horse racing game is to drive around the track. For this there are a variety of driving modes available. These have, among other things, the length of the lap, how many laps there are, the start of the race,
